What is Refugee Week?

Refugee Week is an annual festival celebrating the contributions, creativity and resilience of refugees. Refugee Week 2022 takes place 20-26 June, with the theme of [‘Healing’](#).

Every Refugee Week at hundreds of schools across the country, teachers help children and young people to develop an understanding of refugee experiences that they will carry with them into adult life.

There are all kinds of ways schools can get involved, from holding assemblies and dedicated lessons, to creative activities and launching longer-term projects.

This pack has a range of learning activities and resources for children of all ages that can be explored at school, home or in community settings. There is also a range of family-friendly events taking place around the country – see the Refugee Week [website](#) to find out what’s on near you.

Refugee Week is a partnership project coordinated by [Counterpoints Arts](#). National Education Union and City of Sanctuary (coordinators of Schools of Sanctuary) are among its national partners.

See our [Event Organiser Pack](#) for more resources and information about planning an event for Refugee Week.

Refugee Week 2022: Healing

Whether it’s about looking after ourselves and each other at difficult times, overcoming divisions or coming together for the survival of our shared planet, healing matters to us all. We invite you to respond to the theme of ‘Healing’ in your Refugee Week event or activity, and join us in celebrating community, mutual care, and the human ability to start again.
